EDUCATION

Bachelor of Engineering (VTU) | SJB Institute of Technology, Bengaluru.
Information Science and Engineering (ISE)

February 2023 – June 2025
CGPA 8.02

SKILLS

Programming Languages [Intermediate Level]: Java, SQL, JavaScript, HTML, and CSS.

Frameworks and Technologies: Spring Boot, Spring MVC, Hibernate.

API & Web services [Basic]: RESTful APIs, Postman, and Swagger.

Testing Skills: Manual Testing, Selenium (Basic), SDLC, STLC, Test Case Design, Test Execution, Defect Tracking, Functional Testing, Transaction Testing, End-to-End Testing, Regression Testing.

Tools & Platforms: Git, GitHub, Jira.

Domain Knowledge: Core Banking System (FLEXCUBE), Fraud Risk Management (FRM), Loan Management System, Banking Transactions.

Soft Skills: Leadership, Analytical Thinking, Problem-Solving, Communication, Quick Learner.

EXPERIENCE

Intern - Manual Testing

Profinch Solution Pvt Ltd | October 2025 - Present

- Contributed to the upgradation of **FLEXCUBE** Core Banking System (**CBS**) for Jana Small Finance Bank, ensuring smooth migration and system stability.
- Performed **Fraud Risk Management (FRM)** testing by validating end-to-end transaction flows, detecting suspicious activities, and ensuring secure, compliant, and seamless transaction processing.
- Worked on **I4C**-related fraud scenarios by validating flagged transactions, suspicious accounts, and high-risk patterns, ensuring effective fraud detection and prevention.
- Tested real-time transaction monitoring processes, including alert generation, risk scoring, and fraud control mechanisms.
- Conducted manual testing of Loan Management System modules (**IL, GL, VL, HL**) by designing and executing test cases across functional, transactional, and end-to-end scenarios to ensure system accuracy and reliability.
- Identified and tracked defects, performed retesting, and validated critical workflows while collaborating with development teams to support seamless CBS upgrade and ensure business continuity.

Intern - Java Full Stack Developer

Scontinent Technologies Pvt Ltd | February 2025 - May 2025

- Developed a **Student Data Management System** using **Java Full Stack technologies** – Spring Boot, React.js, MySQL, and RESTful APIs – enabling performance tracking, analytics, and testing features.
- Used **Postman** to test and validate RESTful APIs, ensuring correct responses and smooth integration between front-end and back-end modules.
- Gained practical experience in **end-to-end web application development**, including front-end design, back-end logic, database integration, and API consumption.
- Contributed to Sam.AI by analyzing its architecture and AI-driven personalized learning features.

PROJECTS

AI-Hub with Essential Tool | Python, Tkinter, NLP

- Developed a desktop-based **AI productivity hub** integrating tools like currency converter, YouTube downloader, image enhancer, background remover, and PDF-to-Word converter into a single platform to boost user convenience.
- Used **Python** with **Tkinter**, **OpenCV** for image processing, and **NLP libraries** for intelligent text-based features.
- Focused on delivering a user-friendly interface that improves daily tool accessibility and performance.
- Resulted in a **40% increase in productivity** among users through centralized and easy access to essential utilities.

Smart-Resume Analyzer | Python, NLP, Streamlit, MySQL

- Built an **AI-powered web app** using **Python**, **Streamlit**, **MySQL** and **NLP** for real-time analysis and insights.
- Automated resume parsing and **candidate ranking** based on job title, reducing manual screening time.
- Used the **spaCy**, **NLTK** and **Regex** to extract key resume details and score based on job descriptions.
- Leveraged **JSON** for structured data exchange and deployed user-friendly web pages with Streamlit.
- Enhanced **matching accuracy** for recruiters and improved efficiency in shortlisting candidates.

EDUCATION

Bachelor of Engineering (VTU) | SJB Institute of Technology, Bengaluru.

February 2023 – June 2025

Information Science and Engineering (ISE)

CGPA 8.02

Diploma (DTE) | Government Polytechnic Chintamani.

August 2017 – November 2020

SSLC (KSSCE) | BEML Comp. Junior College.

June 2017 – April 2020

ACHIEVEMENTS

Sports [Kabaddi]

Represented SJBIT / 2023 & 2024 State level VTU

- Represented college kabaddi team at the **VTU State Level** by winning the South Zone Level for two consecutive years.

CERTIFICATES

- **Fundamentals of Java Programming** - Board Infinity (**Coursera**) | Feb 2025 ([View Certificate](#))
- **Programming in Java** - NPTEL
- **Gen AI for Professionals** – Infosys springboard (**Udemy**) | Oct 2025
- **TCS iON Career Edge- Young Professional** - TCS iON | April 2025 (Cert ID: 240640-28094753-1016)
