ACADEMIC DETAILS

COURSE	INSTITUTE / COLLEGE	BOARD / UNIVERSITY	SCORE	YEAR
B.E	SJB Institute of Technology	VTU	8.01	2025
DIPLOMA	Govt. Polytechnic Chintamani	DTE	82.3%	2020
CLASS X	BCPUC	Karnataka Secondary Education Examination Board (KSEEB)	82.72%	2017

Technologies/Tools	React.js, Spring Boot, GitHub
Programming Languages	Java, HTML+CSS, SQL, JavaScript
Soft Skills	Leadership, Teamwork, Problem-Solving, Communication, Fast Learner

INTERNSHIP / WORK EXPERIENCE

Intern - Java Full Stack Developer, Scontinent Technologies Pvt Ltd	Jan 2025 - May 2025
- Opted for the Domain of Java Full-Stack and acquired practical skills during the internship by working on web applications and understanding end-to-end workflows. - Gained insights in to the development process, architecture, and AI-based features of the Sam.AI application, to understand how it supports personalized students learning and assessment. - Developed a Student Data Application System using Java Full-Stack, including Spring Boot, React, MySQL, and RESTful APIs, with focusing on performance tracking, testing and analytics.	
Associate Engineer, Amphenol Interconnect India Pvt Ltd	Sep 2021 - Feb 2023
- Programmed and operated CNC machines using G-code and CAM software to produce precision components. - Interpreted technical drawings and performed quality inspections using calipers and micrometers. - Collaborated with cross-functional teams to resolve machining issues and ensure ISO-compliant operations.	

ACADEMIC PROJECTS

AI-Hub with Essential Tool Main project	
Action: Developed a comprehensive AI-driven productivity hub that integrates daily-use tools such as a currency converter, YouTube downloader, image enhancer, background remover, and PDF-to-Word converter into a single platform to boost user convenience. Technology: Implemented the desktop application using Python with Tkinter for the GUI, OpenCV for image processing, and NLP libraries for intelligent text-based tasks. Contribution: Improved productivity and usability by 40% among student users.	
Smart-Resume Analyzer Mini Project	
- Created a web-based AI-powered resume analyser using NLP, Streamlit, Python and MySQL for real-time analysis and feedback. - Integrated JSON for structured data transfer and leveraged Streamlit to deploy interactive web pages to display resume analysis result in simple and user-friendly way. - Reducing manual screening time and improved candidate matching accuracy through automated parsing and ranking.	

CERTIFICATES

- Programming in Java - NPTEL - Fundamentals of Java - Coursera (certificate...) - TCS iON-Young Professional - TCS iON April 2025 (Cert ID: 240640-28094753-1016)

ACHIVEMENTS

Sports [Kabaddi]
Represented SJBIT / 2023 & 2024 State level VTU
Represented collage kabaddi team at the VTU State Level by winning the South Zone Level for two consecutive years.

HOBBIES

- Competitive Sports - Travel & Photography - Listening to Music
